OXYVA-NAV

OXYVA-WHT

The model OXYVA is a light shoe in EVA, that is used in many aspects of the healthcare industry. A gel compartment in the heel provides excellent shock absorption. The anatomic formed foot bed provides optimal support.

It can be chemically cleaned or with UV and is machine washable up to 86° F/ 30°C. The slip resistant sole provides a good grip both on wet and dry surfaces. The closed top is to protect the foot but lateral vents take care of the needed ventilation.

Oxyva

CE standard
CE EN 20347 certified.

Washable at 86°F or 30° C

Chemical and UV
sterilizable

Not suitable for autoclave
Attention: this model can not be
sterilized in an autoclave.

Shock absorbing

The gel compartment in the heel
makes it very shock absorbing.

Ethylene vinyl acetate (EVA)

The shoe is made of EVA, this material is water proof,
antibacterial and antifungal. It is very light, flexible
and deformation resistant.

Ultra light

The average weight of the shoe is 7.760
ounces or 220 gram.

Anti-static ESD

The shoe has a plug that provides
dissipation of static electricity to be
conform with the ESD standard.

Slip resistant SRC

The rubber outsole provides
excellent grip, both on wet and dry
floors and complies with the SRC
standard.

Recommended for
